Company Introduction – Pentamena Oilfield and Facility Services L.L.C

Established in 2018, **Pentamena Oilfield and Facility Services L.L.C** is a UAE-based company delivering high-quality, cost-effective, and dependable solutions across the **Oil & Gas, Petrochemical, Civil Construction, Marine, and Infrastructure** sectors.

We are proud to be:

- ❑ **ADNOC-approved**
- ❑ **ISO 9001:2015 certified**
- ❑ **ICV-certified**

Our operations strictly adhere to international industrial standards and best practices, particularly within the Oil & Gas and Construction industries. We maintain full compliance with **Health, Safety, and Environmental (HSE)** regulations, ensuring all services are executed with a strong focus on safety, quality, and environmental responsibility.

Scope of Services

1. Trading Division

- Oil & Gas Materials
- Civil Construction Supplies
- Marine and Offshore Consumables

2. Service Division

- Specialized Services for Oil & Gas Projects
- Civil Works & Infrastructure Support Services

3. Rental Division

- HSE Equipment with TPI Certification
- Scaffolding Materials & Accessories

About PentaMena

Established in 2018, **PentaMena Oilfield and Facility Services L.L.C (PMOFS)** has grown into a professionally managed company specializing in **Material Trading, Technical Services, and Equipment Rental (HSE)** for the **Oil & Gas, Offshore, and Construction** sectors.

With a strong focus on **quality, reliability, and client satisfaction**, we are recognized as a trusted supplier and solutions partner across the UAE. Backed by years of industry experience, our team ensures the delivery of top-tier products and services tailored to meet exact project needs.

PMOFS also serves as an agent and distributor for globally renowned manufacturers, ensuring we bring the best to our clients. As we continue to expand, including into international markets, we thank our clients and suppliers for their continued trust and support.

VISION

PMOFS vision is to help our esteemed clients, easily avail anything from us with flawless in the goods in an ethical and balanced manner in order to achieve the long term relationship with them.

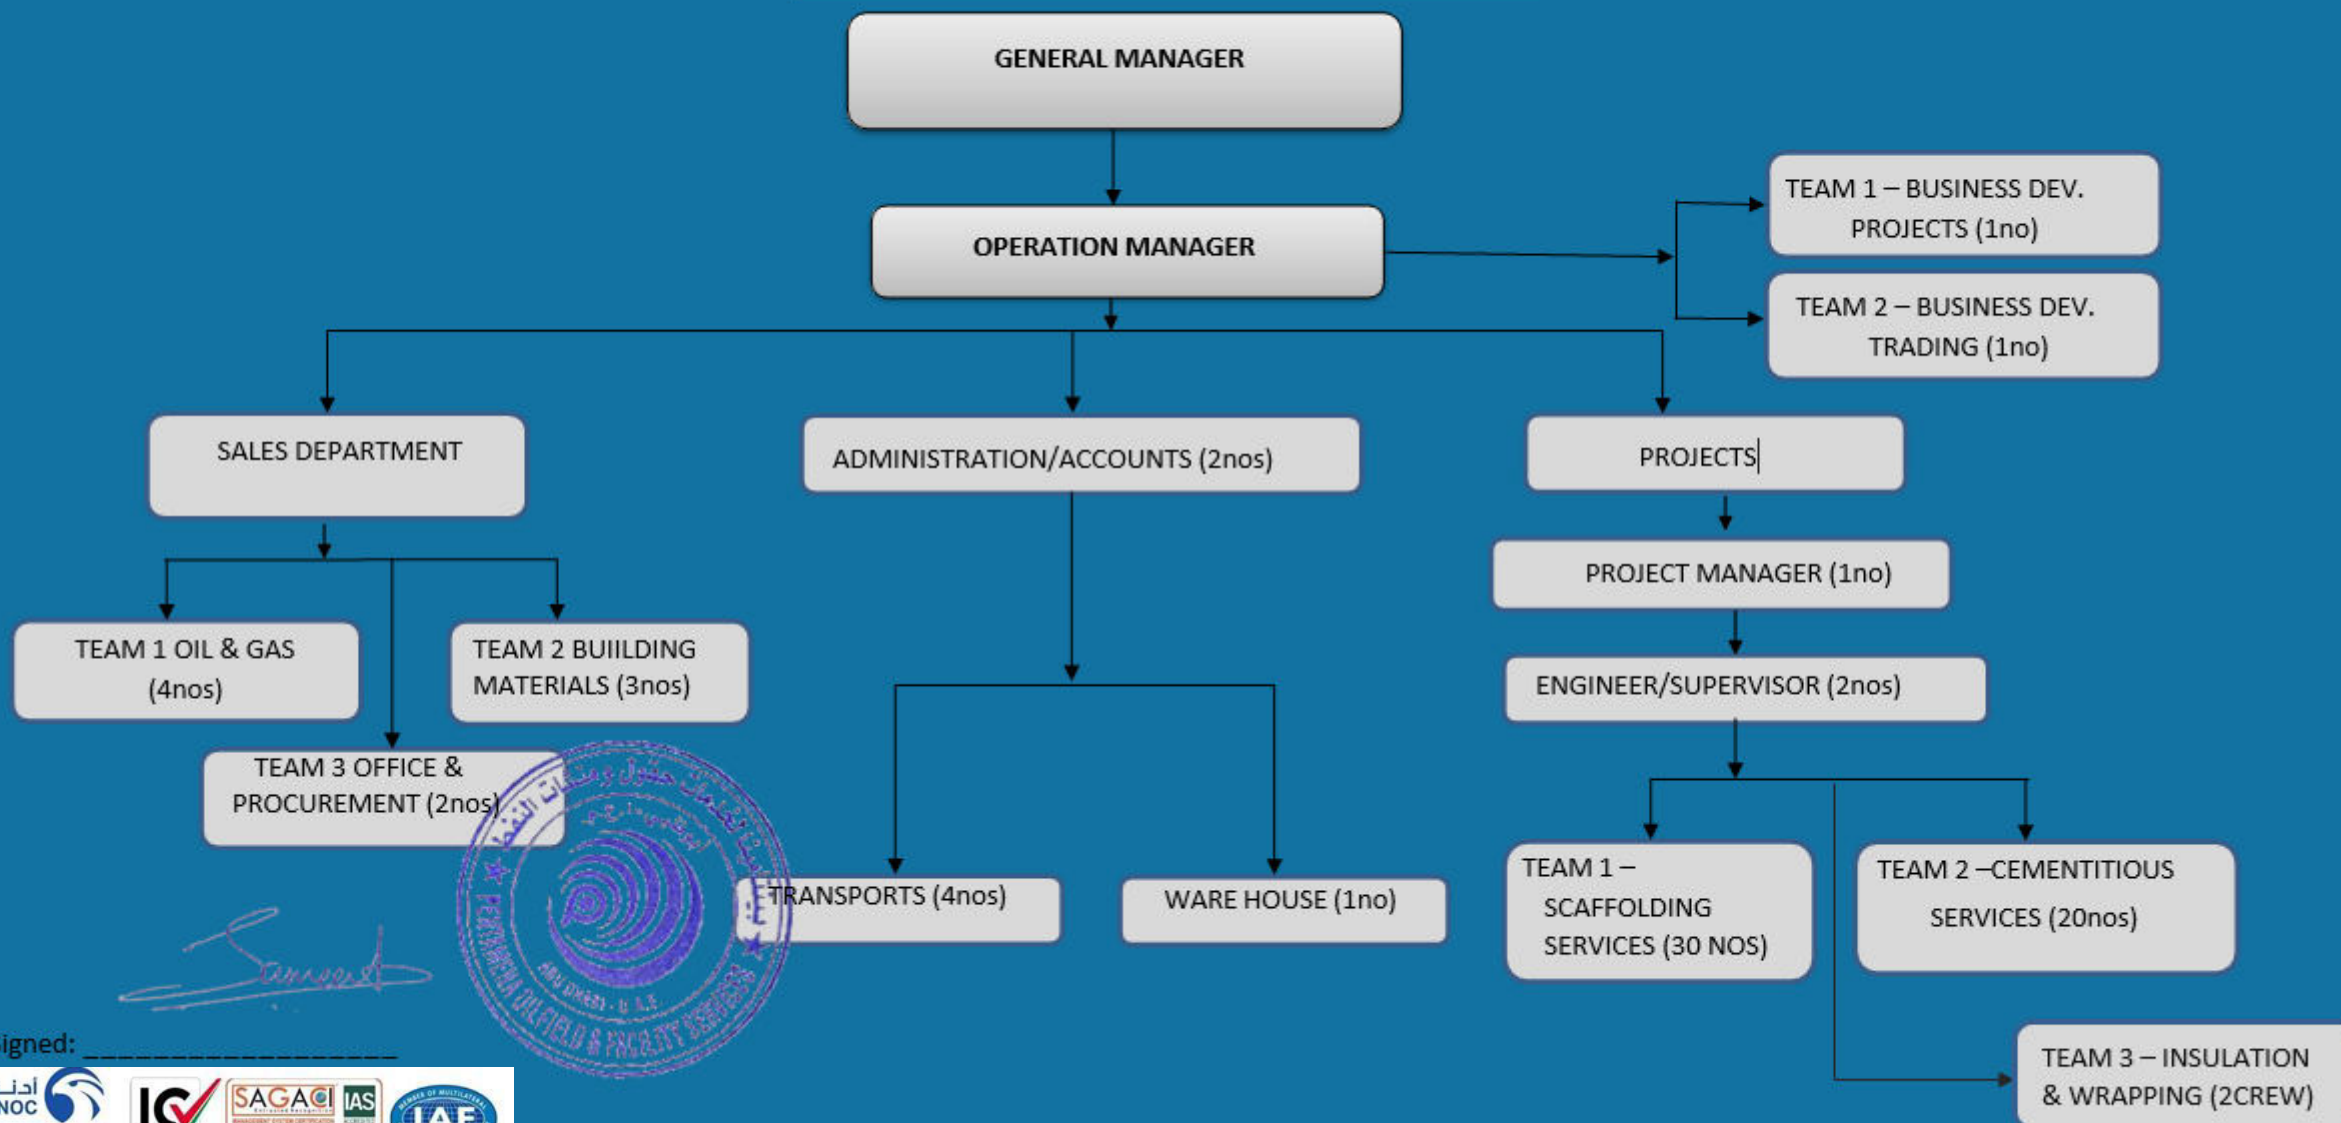

MISSION

Our mission is not just doing deals, instead doing great supply, and providing tremendous service to all our clients with strong manufacturer support throughout the country.

VALUE

PMOFS value is based on the two things, that is “how we do our supply of material” and “how we support our client with the service”.

ORGANISATION CHART

Signed: _____

Service Division

- ▶ We provide a wide range of specialized services tailored for Oilfield and Construction Projects, ensuring adherence to industry standards and client-specific requirements:
- ❖ **Cementitious Fireproofing**
Application of passive fire protection systems using cement-based materials for structural steel and equipment, compliant with international fire safety standards.
- ❖ **Pipeline Wrapping & Coating**
Corrosion protection and wrapping solutions for underground and above-ground pipelines using industry-approved materials and techniques.
- ❖ **Access Solutions – Scaffolding**
Supply, erection, and dismantling of scaffolding systems for safe access in construction, maintenance, and shutdown projects.
- ❖ **Technical Manpower Supply**
Deployment of skilled and certified manpower for various disciplines, including insulation, fireproofing, scaffolding, painting, and general construction support.

Cementitious Fireproofing work

For Structural Steel & Equipment Protection

PentaMena offers professional **cementitious fireproofing services** designed to protect structural components and equipment in critical infrastructure. This process involves applying a **lightweight, cement-based fire-resistant coating** to steel beams, columns, and other load-bearing structures.

Applications

Cementitious fireproofing is widely used in:

- ❑ **Industrial Facilities:** Refineries, chemical plants, power stations
- ❑ **Commercial Buildings:** High-rise towers, airports, malls
- ❑ **Oil & Gas Infrastructure:** Onshore terminals, offshore platforms, process facilities

Purpose & Protection in Case of Fire

The primary function of cementitious fireproofing is to **delay the transfer of heat during a fire**, acting as a thermal barrier that insulates the structural steel. This helps prevent the structure from reaching **critical failure temperatures**, ensuring:

- Extended structural stability
- Valuable time for safe evacuation and fire response
- Reduced risk of collapse and property damage
- Compliance with international fire safety standards (e.g. UL 1709)

This proven protection method is essential for safeguarding life, assets, and infrastructure in **fire-prone and high-risk environments**.

Cementitious Fireproofing work

Cementitious Fireproofing Pumps

Pipeline Wrapping & Coating

Oil & Gas Pipeline Wrapping – Anti-Corrosion Protection

PentaMena provides specialized **pipeline wrapping services** for oil and gas line pipes using **high-performance anti-corrosion materials**. Our solutions are designed to protect pipelines from harsh environmental conditions, mechanical damage, and chemical exposure—extending their lifespan and ensuring safe, uninterrupted operations.

We use **ADNOC-compliant wrapping systems** such as bitumen tapes, PE wraps, and cold/heat shrink sleeves, ensuring strong adhesion and long-term durability for both **underground and above-ground pipelines**.

Our services include:

- Surface preparation and cleaning
- Application of corrosion-resistant wrap systems
- Quality inspection and testing
- Post-service support and maintenance

Ideal for oil and gas pipelines in **onshore and offshore** environments, our wrapping solutions help prevent corrosion, reduce maintenance costs, and meet all relevant industry standards.

Pipeline Wrapping

CSNRI
SCARGUARD ARO SYSTEM TRAINING

- ✓ Excellent abrasion resistance for protecting coated pipes
- ✓ Excellent abrasion resistance damage
- ✓ High impact resistance

System : CSNRI Scarguard ARO system
Mainline Coating : 3LPP
Date : 14/10/2024 **Location :** Abu Dhabi, UAE
Purpose : Abrasion Resistant Overwrap

Access Solutions – Scaffolding

Supply, Erection & Dismantling Services

PentaMena offers comprehensive scaffolding solutions tailored for **construction, maintenance, shutdowns, and turnaround projects** in the Oil & Gas, Industrial, and Civil sectors. Our services ensure **safe access** to all working areas, even in the most challenging environments.

We provide:

- ❑ **Design, supply, erection, and dismantling** of scaffolding systems
- ❑ Scaffolding solutions for **confined spaces, elevated structures, and offshore/onshore facilities**
- ❑ **Qualified and experienced scaffolding teams** trained in safety and best practices
- ❑ Full compliance with **international scaffolding standards**, including:
 - **BS EN 12811-1** (Temporary Works Equipment – Performance Requirements and General Design)
 - **OSHA 1926.451** (Occupational Safety and Health Administration – Scaffolding)
 - **ADNOC HSE Guidelines and Site Requirements**

All scaffolding materials are inspected and certified, and our operations are conducted under strict **HSE supervision**, ensuring maximum safety and efficiency.

Why Choose PentaMena?

- ❖ ISO 9001:2015 & ICV certified
- ❖ Proven track record in major Oil & Gas and industrial projects
- ❖ Timely mobilization, professional execution, and risk-free access

Access Solutions – Scaffolding

Types of Scaffolding Systems

Pentamena offers a range of **scaffolding types** to suit diverse project requirements, ensuring safe access, structural stability, and compliance with industry standards.

Cuplock Scaffolding

- Quick-locking system for fast assembly and dismantling
- Ideal for heavy-duty applications and large-scale industrial projects
- Suitable for **refineries, power plants, and shutdown works**

Tube and Clamp (Tube and Fitting) Scaffolding

- Highly versatile system using steel tubes and clamps
- Flexible design for **irregular, confined, or complex structures**
- Preferred for **refinery vessels, columns, offshore rigs**, and custom access needs

Mobile Scaffolding (Rolling Type)

- Scaffold towers with wheels for mobility
- Ideal for light-duty indoor works and **frequent repositioning**
- Common in **MEP, finishing, and inspection activities**

Suspended Scaffolding

- Platforms suspended from the top using ropes or chains
- Used for **high-rise structures, maintenance, and facade works**
- Operated manually or with mechanical systems

Mobile Scaffolding

- Wheeled scaffolding towers for **indoor or maintenance use**
- Ideal for **electrical, painting, inspection**, and **light MEP works**
- Easy to relocate with braking systems for stability

Scaffolding

Access Solutions – Scaffolding

Manpower Solutions

A Wide Talent Pool at Your Fingertips

At **Pentamena**, we offer dependable and qualified **technical manpower solutions** to support the success of your projects—across a wide range of industries. Whether your requirement is for short-term skilled labor or long-term deployment, we ensure the **right talent is delivered on time and fully prepared** for your site.

Our Expertise Covers:

- Oil & Gas Operations
- Civil Construction & Infrastructure Projects
- Manufacturing & Industrial Installations
- Renewable Energy Developments

We Supply Professionals Such As:

- Engineers & Supervisors
- HSE Officers, Safety Engineers & QA/QC Inspectors
- Equipment Operators & Skilled Technicians
- Scaffolders, Insulators, Blasters, Painters & Fireproofing Crews
- Administrative and Technical Support Staff

With **Pentamena**, you gain access to a trusted manpower partner that understands your operational challenges and delivers **cost-effective, competent, and safety-compliant workforce solutions**.
