Oilfield And Facility Service LLC.

COMPANY PROFILE

About PentaMena

Over the years Pentamena Trading has steadily developed into a professionally managed company, wholly dedicated to the most exacting standards of quality in supplying material, Client service and consistently motivated by End user to ensure total product satisfaction. We have been recognized as one of the countries sought after supplier and leading partner in solutions to offshore, Oil & Gas, and construction industries. Our unquenchable thirst to grow further in this sector and rise above client's expectation allows us to keep developing new material supply each year. With hard work and persistence, we will soon be entering the international market and work towards providing even better experience to our clients. POFS acts as an agent and distributor to numerous renowned Manufacturers and service providers. We are trusted and appreciated and in turn we make sure that we offer nothing but the best to our clients. POFS offer our thanks and appreciation to our Client and suppliers for their continued trust and confidence in us.

Our Trading and supply division have wide range of quality products and our personal experience for more than a years in this field has helped us to select the exact requirement of the oil & gas and building construction industry.

Our Trading and Supply Divisions

PENTAMENA TRADING

PentaMena Trading has become a leading supplier for the offshore, oil & gas, and construction industries, known for its commitment to quality and client satisfaction. Our strong partnerships with top manufacturers allow us to provide innovative solutions that meet client needs, and we are preparing to expand into international markets.

PENTA SAFETY

Through Penta Safety, we offer a wide range of high-quality Personal Protective Equipment (PPE) including coveralls, safety footwear, helmets, workwear, gloves, eye and face protection, respiratory and fall protection, fire safety products, and specialized equipment like Isafe phones and gas monitors.

MENA ABRASIVES

In Mena Abrasives, we supply premium abrasives, steel grit, wrapping products, and fireproofing materials. Additionally, we offer a full range of hand and power tools, welding equipment, and insulation materials to meet the demands of the oil & gas and construction sectors.

OTHER SERVICES

We also provide vital services, including cementitious fireproofing, pipeline wrapping, technical manpower supply, scaffolding materials and rental, and oil & gas HSE equipment rentals, ensuring our clients receive reliable, high-quality solutions for their industrial needs.

 VISION

POFS vision is to help our esteemed clients, easily avail anything from us with flawless in the goods in an ethical and balanced manner in order to achieve the long term relationship with them.

 MISSION

Our mission is not just doing deals, instead doing great supply, and providing tremendous service to all our clients with strong manufacturer support throughout the country.

 VALUE

POFS value is based on the two things, that is “how we do our supply of material” and “how we support our client with the service”.

Company Profile – Wrapping Products

Company Overview

Pentamena Oilfield and Facility Services L.L.C – O.P.C is a leading supplier of high-quality wrapping products for industrial applications. Our premium solutions are designed to provide long-term durability, corrosion resistance, and protection for pipelines, storage tanks, and critical infrastructure. We specialize in offering industry-approved brands such as **Denso Tape**, **SCAR-GUARD**, **DEVCON**, and **VISCOTAQ**, ensuring top-tier performance in demanding environments.

Our Wrapping Products

1. DENSO TAPE

Application: Used for corrosion protection and surface preparation of metal pipes and fittings. Ideal for underground and underwater pipelines, offering long-term resistance against rust, corrosion, and weathering.

Key Features:

- ✓ Highly adhesive and waterproof
- ✓ UV-resistant for outdoor applications
- ✓ Ideal for harsh industrial environments
- ✓ Available in various thicknesses for customized protection

2. SCAR-GUARD® – Advanced Pipeline Protection

Designed for **pipeline protection and reinforcement**, ScarGuard® is a high-performance wrap that protects against **abrasive wear and corrosion**. This **composite Abrasion Resistant Overcoat (ARO)** consists of fiberglass fabric pre-impregnated with a flexible resin that is **activated by water and cures within minutes**.

Key Features & Benefits:

- Superior mechanical protection against impact and abrasion
- Prevents gouging & coating damage to ensure pipeline integrity
- Non-shielding design for reliable performance
- Eliminates costly re-pull operations
- Protects field joint & mainline coatings such as **FBE, liquid epoxies, shrink sleeves, and tapes**
- Environmentally safe with no hazardous byproducts

Applications:

- Horizontal Directional Drilling (HDD)
- Thrust Boring
- Microtunneling
- Direct Pipe
- Trenchless Pipeline Construction
- Field Joints Protection

ScarGuard® minimizes the need for **costly repairs after pullback** and provides **robust protection** of the underlying pipeline coating. It acts as a **sacrificial outer laminate system**, shielding pipelines from **mechanical stresses and scarring** associated with trenchless installations.

3. DEVCON

Application: DEVCON industrial coatings are used for repairing and rebuilding metal surfaces, including pipelines, storage tanks, and other critical infrastructure.

Key Features:

- ✓ Includes steel putties, ceramic coatings, and repair compounds
- ✓ Restores damaged areas to original specifications
- ✓ Cold welding solutions for emergency repairs
- ✓ Resistant to chemicals, wear, and high temperatures

4. VISCOTAQ

Application: VISCOTAQ viscous elastic wrapping materials are perfect for providing corrosion protection to straight pipes, elbows, flanges, valves, and other pipeline components.

Key Features:

- ✓ Excellent waterproofing and corrosion resistance
- ✓ Flexible and can be applied to complex shapes
- ✓ Offers outstanding adhesion to metal surfaces
- ✓ Available in various formats for different pipeline configurations

Benefits of Our Wrapping Products

- ✓ **Corrosion Protection:** All products are specifically designed to protect pipelines from rust, wear, and corrosion caused by environmental and operational factors.
- ✓ **Long-Term Durability:** Ensure extended service life and minimize the need for frequent repairs.
- ✓ **Customizable Solutions:** Tailored to fit different pipeline sizes, configurations, and environmental conditions.
- ✓ **Industry-Approved:** Trusted in the oil, gas, and industrial sectors for their proven effectiveness and reliability.

Why Choose Pentamena?

- **ADNOC Pre-Qualified Supplier (Code: 10069453)**
- **ISO 9001:2015 Certified, ICV Certified**
- **Commitment to High-Quality Industrial Solutions**
- **Strong Track Record in Oil & Gas Projects**

Our Supplies

PENTA SAFETY

MENA ABRASIVES

Other Major Supplies

HAND TOOLS AND POWER TOOLS

We distribute various types of Power tools, like Hammer drills, Drilling machines, Grinding machine etc., & Equipments such as Blasting, Painting, Insulation, Welding, Civil equipments.

WELDING EQUIPMENT ACCESSORIES AND CONSUMABLES

The Electrical Systems & Welding Trading Division is focussed to cater mainly for the domestic, Retail, commercial and industrial sector in UAE.

INSULATION, CLADDING MATERIALS, AND ACCESSORIES

As a leading Industrial Insulation Service provider for the Gas & Oil Sector POFS Insulation are skilled in developing solutions for its clients.

OILFIELD EQUIPMENTS & SAFETY CONSUMABLES

We POFS distribute a wide range of materials used in offshore and onshore with approved certificate for Zone 0, Zone 1, Zone 2 areas.

IFR COVERALL

EN ISO 11612-2015 A1 A2 B1 C1 FI
EN 1149-3/5
UNE EN 61482-1-2
EN ISO 20471

Specifications

- Inherent FR Blend BT80864M
- Stitched in Aramid FR Threads
- 180 GSM IFR blend
- Heavy-duty two-way zipper with stud button closure
- 1" Reflector Tape in 6 spots
- 2 Chest pocket, LHS chest pocket with snap locked cover
- RHS chest pocket with snap lock
- 2 back pocket, RHS back pocket with snap locked cover
- LHS back pocket with snap lock
- 1 Pen pocket on each hand sleeves
- 2 Side cross pocket, 1 Tool pocket on right leg
- Adjustable wrist with concealed snap button
- Elasticized waist at both sides for self-adjusting fit
- Permanently sewn crease line
- Protection from Flash fire, Arc flash, foundries, and electric utilities
- Permanently treated to guarantee flame resistance for garments
- Inherent protection can't be washed out or worn away
